**Scholarly Engagement Policy**

Effective fall 2016, the doctoral residency requirement was replaced with the **Scholarly Engagement** requirement. Doctoral students are still required to complete a minimum of 24 dissertation hours and many students complete far more than this minimum. The Continuous Enrollment policy also still applies.

The **Scholarly Engagement** requirement ensures that doctoral students are active participants in the scholarly community. Each academic unit with a doctoral program will include a program specific statement in its Graduate Handbook describing how its students can meet the Scholarly Engagement requirement annually.

**Supervisory Committee**

**A minimum of 4 members who hold Graduate Faculty Status (GFS) at FSU is required** – 2 members, including the major professor, must be from the major in which the student will receive a degree. One member, the University Representative, shall represent the graduate faculty at-large. Additionally, the University Representative must be a tenured member of the FSU faculty.
